

Validate Addresses to the Delivery Point for Ultimate Mailing Efficiency and Postal Discounts

Are you wasting money on postage because your mailing list records are out-of-date, incomplete, and not meeting the requirements for USPS discounts? Each year returned or undeliverable mail cuts into company profits; it's estimated that a single piece of returned mail costs an average of \$3.

Deliver more mail and increase your marketing ROI when you have Melissa Data match your mailing list against the 165-million record-DSF2 database. DSF2 is updated monthly and contains every USPS deliverable address in the U.S., including data on whether a property is vacant, residential, business, a seasonal address, a curbside mailbox, or a door slot.

DSF2 also puts your mailings into a "Walk Sequence Order," the order a postal carrier delivers mail on a particular mailing route. This process qualifies your mailings for significant postal discounts.

Benefits & Features:

- Qualify for postal discounts
- Postal coding & delivery/walk sequence order
- CASS™ standardization
- Identify delivery types such as curbside, door slot, box, etc.
- Learn if a property has been vacant 90+ days

DSF² Pricing

Records	Price	Min. Order	Std. Turnaround	Add'l Fees
Up to 100,000	\$2.95	\$40.00	1 Business Day	None
Up to 500,000	\$2.50	\$40.00	1 Business Day	None
Up to 1 Million	\$1.50	\$40.00	1 Business Day	None
Up to 5 Million	\$1.00	\$40.00	1 Business Day	None
