

Reduce Undeliverable-As-Addressed Mail (UAA) and Associated Costs

Did you know that 43 million Americans move each year? This means that untold numbers of your customers have changed addresses in the last few years---and you need to update your records before your next mailing. Submit your mailing list for NCOALink® processing and you will save money and time by reducing UAA mail.

Our NCOALink processing validates each name and address in your data file, employing the USPS CASS Certified™ address verification and correction. Once addresses are corrected, each record is matched against the USPS 48-month NCOALink database containing 160 million moves. When a match is made, Melissa updates your address file with the most current address information.

Melissa is a USPS® NCOALink Full Service provider with access to a database of 160 million change-of-address records dating back 48 months. We offer two package options for our NCOALink customers: a 48-month option; and a 24-month option. Most providers typically offer an 18-month option, but because we are a Full Service Provider we have the capacity to offer six additional months at no charge.

Qualify for Postage Discounts - Satisfy the USPS® Move Update Requirement

Mailing lists that are processed through Melissa Data's NCOALink service meet the USPS Move Update requirement. By meeting this requirement mailers save money and qualify for significant postage discounts from The Postal Service®.

What is the Move Update Requirement?

To qualify for First-Class Mail® or Standard Mail® presort or automation rates, the Postal Service® requires that mailers update their mailing lists via NCOALink (or other approved methods) and mail out their pieces no later than 95 days after the update.

Your Mailing List Processed in Minutes

Our NCOA^{Link} service is available via batch processing or automated FTP. Choose the option best for you

- 1. Batch Processing** - Submit your file in any format for batch processing by our Service Bureau – we do all the work.
- 2. Automated FTP** - Quickly and securely upload your files 24/7 for automated processing in minutes. There are no minimum charges per file or set-up fees – you only pay for the processing.
