Canadian Geo*Data

Verify & enhance Canadian customer records for greater ROI

Instantly verify Canadian addresses and link the postal codes to valuable geographic data to increase response rates. Use this database with your custom programs to validate, correct, and standardize Canadian addresses and qualify mailings to meet Canada Post requirements.

- Instantly verify municipality / province / postal code
- Catch data entry errors and reduce keystrokes
- Increase deliverability and response rates
- Use latitude/longitude with mapping applications

Get more mail delivered with accurate address data

Canadian Geo*Data contains over 766,000 records to provide you the information you need to link Canadian postal codes to corresponding geographic data. Simply enter the Postal Code and Canadian Geo*Data returns the following data:

- Postal Code
- Municipality
- Province
- Area Code & Overlay
- Latitude / Longitude
- Time Zone & DST

Maintain communications with your customers

- Get the dominate area code for the Postal Code
- Find all the possible area codes in an area
- Use correct 2-character abbreviation for Province
- Use time zone for appropriate phone call followup
- Know if time zone observes daylight savings time

Data Submitted

E7P2M4

Canadian Geo*Data Returned
